**Good Samaritan Society-Daytona
Grand Reopening Event
1920s Style**

Daytona Beach, FL – Good Samaritan Society-Daytona invites the community to come and be a part of history and tour the areas of the newly renovated Olds Hall, built in 1922, and sections of the Assisted Living and Healthcare Center. The staff will be guiding the tours in costumes from the 1920s with music and vintage cars from this era. Light refreshments will be provided.

Please join the fun on Friday, August 23, 2013 from 2:00 p.m. – 4:30 p.m. at Good Samaritan Society-Daytona Olds Hall, 340 South Ridgewood Avenue, Daytona Beach. The grand reopening celebration is being presented in the spirit of the Riverfront Shops of Daytona Beach's Front Porch Friday Festival that will be celebrating the 1920s. The fourth Friday of each month the festival pays tribute to a different decade. For more information about Front Porch Friday Festival please visit <http://www.riverfrontshopsofdaytona.com/front-porch-friday-festival> or for more information about the grand reopening at Good Samaritan Society-Daytona, please call 386-253-6791 or visit www.good-sam.com/daytona.

About Good Samaritan Society-Daytona

Whether for skilled nursing care, assisted living, long term care, independent senior apartments or memory care, Good Samaritan Society-Daytona is a senior community that provides quality living through highly trained professionals; licensed nurses; certified nursing aids and added technology to ensure the safety and care to all the residents.

Good Samaritan Society-Daytona is a faith-based, not-for-profit organization that offers a variety of spiritual activities and opportunities on campus, where all faiths and beliefs are welcome. In addition, individualized daily activities are designed to meet the needs and desires of each resident to help enhance their physical, mental, social and spiritual well-being.

The Assisted Living at Good Samaritan Society-Daytona focuses on enhancing the well-being of the residents through the unique combination of technologies coupled with the caring staff. It uses discreet sensors, many of them smaller than a light switch, to detect changes in normal day-to-day life – like sleeping patterns, trips to the bathroom and bathing habits. The information gathered by sensor technology helps the residents, families and caregivers make unbiased decisions that can proactively help them achieve their health related goals and bring about a better quality of life to support aging in place. There is nothing the resident needs to do, but live their life.
