**Stargazer Series focuses on the spring sky**

The universe's best and brightest will be on display as the Stargazer Series continues at 7 p.m. Friday, April 28, at the Daytona Beach Regional Library, 105 E. Magnolia Ave.

Dr. Jason Aufdenberg, associate professor of physics and astronomy at Embry-Riddle Aeronautical University and faculty adviser for the university's Amateur Astronomy Club, will lead a celestial celebration of the spring sky.

The program will begin in the library auditorium with basic instruction on how a telescope works, followed by a simulation using Starry Night software of the Daytona Beach-area sky, as well as astronomy news from Embry-Riddle. After a Q&A session, the program will move outside, where participants can view celestial objects using the library's SkyQuest telescope.

This free program is sponsored by the Friends of the Daytona Beach Library. Reservations are not required. For more information, call 386-257-6036, option 4.

The library is open seven days a week at 105 E. Magnolia Ave. Hours are 1 to 5 p.m. Sunday, 9 a.m. to 7 p.m. Monday through Thursday, and 9 a.m. to 5 p.m. Friday and Saturday.
