Did You Know

At **AlphaGraphics of Daytona** we partner with businesses to effectively communicate their message and increase their audience base. According to Statistics, 80% of internet users who recall watching a video on a website, 46% of that group took action after the ad that translated into sales.

When potential clients are searching for a product or service, they type in Google search to find what they are looking for. If a video exists, they are more likely to click on the video as their first choice as opposed to reading about the products or services.
